

We welcome you to join us for the NLN Clinical Focus Group - Compression facilitated by

**Holly Rodriguez, PT, MPT, CLT-LANA.**

Join Holly in a lively discussion about compression, including case studies, types of garments, and more! All lymphedema therapists of varying settings, geographic location, and discipline are welcome.

We encourage submission of questions or topics for discussion via email at [continuingeducation@lymphnet.org](mailto:continuingeducation@lymphnet.org).

These are not recorded, therefore they are not accessible at a later date.

Holly Davis Rodriguez, PT, MPT, CLT-LANA, has been a physical therapist for 19 years. She practices in an outpatient clinic at Kaiser Permanente in Vacaville, California. In 2008, Holly became a Certified Lymphedema Therapist through the Norton School of Lymphatic Therapy and received her LANA certification in 2013. In 2018, she became a Certified Oncology Rehabilitation Specialist through the Physiological Oncology Rehabilitation Institute (PORi) and in 2022, became Board-Certified in Oncologic Physical Therapy through the American Board of Physical Therapy Specialties. As a clinical specialist in lymphedema and oncology rehabilitation, she is a Kaiser Permanente leader among her peers. Holly has developed regional programs and sits on several Kaiser Permanente regional and local service area committees. Holly was a previous presenter at the 2020 National Lymphedema Network Conference: “Overview of Abdominal Lymphedema” and “Panniculus: Core Treatment Strategies”. Outside of work, Holly loves to travel, dance, and is a volunteer board member of a nonprofit, Thriving Pink, helping breast cancer survivors thrive.
